

Greetings to the Kind Folks at the FCC,

I am writing to register a concern over Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election. I find this to be a clear example of the dangers of media consolidation.

I have worked in the music business for over 13 years, and have seen the number of choices we have as American Citizens and media consumers dwindle to nothing.. nothing like it was when I was growing up in the 70's in reference to radio stations playing many genres of music. At the time, I felt that was just business; not much I could do to change it.

But, now, I realize that was not true. I do have a voice and I feel strongly that Sinclair, while using the public airwaves free of charge, is obligated by law to serve the public interest. Now that the large companies control the airwaves, this serves their best interest and not the publics'. Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. Please use your power to insist this kind of power weilding end.

Thank you.
